

# Item-Level Supply Chain Management Made Easy

## End to End Traceability with Levata and Mojix

Levata and Mojix have come together to integrate the world's leading real-time, item level visibility (RTILV) platform with the industry leading hardware integrator, to future proof supply chains. Now businesses can transform raw data into actionable insights.

Real-Time Inventory Management

Streamlined Warehouse Operations

Improved Supply Chain Efficiency

## The Goal: 98% Accuracy

- 60% Accuracy: Current inventory accuracy in stores
- 33% operate with cross-channel inventory
- 46% of Supply Chain execs consider data quality and accuracy questionable

## Unleash the power of Data

- 100% Audit of Outbound Shipments
- 90% Labor Reduction
- 100% Audit of Inbound Shipments
- > 99.8% inventory accuracy

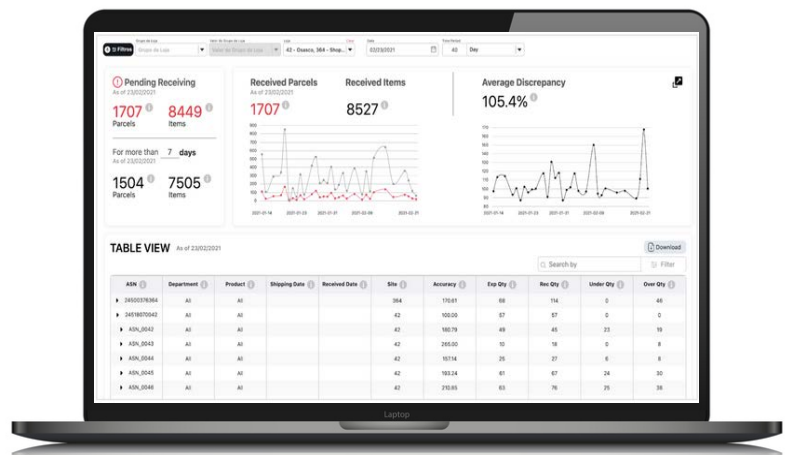

## Building a Better Together Ecosystem

Levata helps organizations monitor, anticipate, and accelerate workflows by empowering their frontline and ensuring that everyone and everything is visible, connected and fully optimized.

Global leader in item-level intelligence solutions for Manufacturing, Supply Chain, Retail, and Food. Leading the way in item-level traceability solutions utilizing high security, globally scalable cloud-hosted SaaS platform.

# World-Class Data Capture Tech

Once we work with you to identify your needs for barcode readers, barcode printers, handheld computers, RFID readers, and other automatic identification and data collection (AIDC) hardware, we'll design the optimal end-to-end solution for your operation using industry-leading products like Zebra Technologies.

Mobile Computers

Labels

POS/Tablets

Scanners

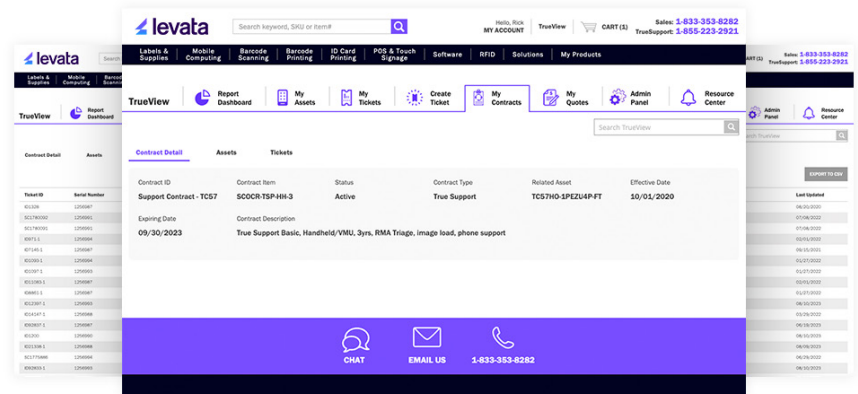

Wearables

Printers

# TrueSupport

Solution design, onboard process, Day-2 support and endpoint management. Our experienced TrueSupport teams maintain current industry project management and technical certifications to quickly solve the best implementation process, pre-configure and maintain your devices all while supporting your users.

## We'll Handle Your Devices.

Do What You Do Best with TrueSupport.
